SUMMARY

Video editor and AI video specialist with 5+ years producing Meta performance ads. I blend generative AI, storytelling and fast iteration into ads that sell, with a strong background in 3D art and motion design.

EXPERIENCE

Video Editor, AI Video Specialist, 3D Rendering

Particle | May 2025 – Present

- Concept, script and edit Meta video ads end to end with the marketing and design teams: **490+ ads**, most with 2–3 hook variations for A/B testing
- Build profitable ads with generative AI
- Render the company's products in 3D for ads and marketing

Video Editor, 3D Artist, Motion Designer, Graphic Designer

Freelance | June 2023 – April 2025

- Created Meta promotional videos, 3D and motion graphics ads, and graphics for businesses and music bands

Video Editor, Motion Designer, Graphic Designer

Alex Daniel & Fine House of Brands | October 2021 – May 2023

- Created Meta video ads, After Effects animations and social media graphics for brand clients
- Supervised the video editing team at Fine House of Brands to keep every video at a consistent quality

Video Editor, Graphic Designer, Astronomy Guide

World of Astronomy (part-time) | January 2020 – December 2024

- Produced educational videos and social media content, managed the website, and guided telescope observations in the desert

Video Editor, Motion Designer, Photographer

IDF, Human Resources Corps | July 2019 – July 2021

- Produced videos and graphics for internal communication, training materials and recruitment campaigns, and photographed events

EDUCATION

3D Art and Animation Course, Associate's Degree

Israeli Animation College (IAC) | April 2022 – October 2024

Professional Online Courses

- Advanced After Effects, Premiere Pro, Photoshop and Illustrator courses by Daniel Scott, Jake Bartlett, Jordy Vandeput, Eran Stern, IITC College and Solo College
- Blender course by Robin Ruud, ZBrush course by Abraham Leal

KEY RESULTS

$78K+ revenue and 860 purchases from my Meta ads in one year

1,000+ deliverables including 2–3 hook variations per ad
